Milk Replacers

Volac Lamlac Instant - 75006 / 74999

Protein 24%

- Concentrated milk protein – Highly digestible for faster growth
- Ultrafiltrated milk protein – Natural health protection with less risk of nutritional upsets
- Instantised – Easy mixing even in cold water
- Fully formulated – Provides all the nutrients required by the lamb
- Stays fresh for 24 hours – excellent in ad-lib systems
- Available in 5kg, 10kg, 25kg bags – for convenience
- Available in Instant or Freeflow forms – Suits all rearing systems (manual/machine)
- Outstanding growth rates proven in performance trials

Volac Lamb Volostrum - 3460 / V0654899

A natural alternative to colostrum to be fed whenever ewe colostrum is unavailable or in short supply

Feed colostrum as soon as possible after birth preferably within the first 6 hours whilst the gut wall is still permeable. Colostrum contains protective antibodies that can only be absorbed through the gut wall during the first 24 hours of life providing a vital energy source and protecting the lamb from hypothermia.

- Complete Colostrum substitute
- 38g per 50g (140ml) lamb feed
- Helps newborn lambs resist potentially fatal disease challenges
- Highly digestible source of energy helps reduce risk of hypothermia
- Consistent quantity and quality guaranteed
- 2 year shelf life
- Vital stand-by in any lambing shed
- Independently tested

BOCM PAULS Ewbol Easimix - P02010BG

Nettex Collate Ultra

- N1623517

Concentrate whole colostrum

Lamb Blends

Duchy Super Lamb 16 (No 99) - K05099BG

- 16% Protein
- High energy finishing mix for maximum weight gain
- Feed from birth to finished lamb

Lamb Compounds

All Pinnacle lamb feeds contain Ammonium Chloride to prevent urinary calculi

Pinnacle Baby Lamb 16 Pellets - P02307BG

- 16% Protein
- Palatable starter or creep ration to get lambs off to the best possible start
- May also be used for growing and finishing lambs
- Designed to be fed ad-lib
- Feed from birth to finished lambs (approx 12 weeks)

Pinnacle Rapid Lamb Pellets - P02306BG

- 18% Protein
- High starch and energy for efficient lean meat production
- Used for high performance flocks
- High density diet for housed lamb
- A powerful start to finish ration for both housed and grass fed lambs
- For fast growth of young lambs for early market
- The ultimate in lamb production
- Feed from 18 – 20kgs liveweight to finished lambs

Pinnacle Lamb Finisher Pellets - P02308BG

- 15% Protein
- The product for autumn / winter housed lambs for the hogget market
- Highly digestible giving safe transition from grass to housing
- Good food conversion
- Feed from approx 12 weeks to finishing

BOCM Pauls Ewbol Quality Lamb Pellets - P02307BG

- 16% Protein
- High protein levels to promote higher daily liveweight gains and better grading
- High energy from carefully selected oil sources for efficient lean meat production
- Simple and safe transition from feeding at grass to ad lib concentrates
- Minimises digestive problems especially acidosis
- No Introduction period necessary at housing
- Highly palatable increases feed intake for fast growth and better grading
- Can be fed as a creep feed from 4/5 days through to slaughter for March lambing flocks or ideal for the finishing of store lambs through to slaughter
- Suitable for autumn finishing and Intensive Ad Lib finishing

Lamb Supplements

Duchy Sheep GP - G146

- 20kg Molassed Mineral Bucket providing minerals, trace elements and vitamins
- Suitable for ewes & lambs
- Supplies very high levels of Vitamin E to help boost lamb vigour and immunity

Special Lamb Mineral - Order only

- Loose minerals suitable for home mixing lamb creep
- Contains no magnesium

Sheep Compounds

Pinnacle Ewe & Lamb Nuts - P02315BG

- 16% Protein
- General purpose feed
- Popular ewe ration for one feed systems being suitable for both in-lamb and lactating ewes
- To be fed at 0.25kg to 1kg per head per day

Pinnacle Ewe Milk 18 Nuts - P02316BG

- 18% Protein
- High energy ration designed to be fed to prolific ewes in pregnancy (150%+ lamb crop)
- Promotes good foetal lamb growth
- Boosts milk production
- Top quality ration for excellent performance
- Contains high selenium & vitamin E for healthy lambs

Pinnacle Ewe Milk 18 Rolls - P02321BG

- As above in roll form

Pinnacle Sheep 18 Nuts - P02323BG

- 18% protein
- Cost effective nutrition for mid performing flocks
- Commercial ewe feed for flocks lambing up to 150%
- Balanced digestible energy and protein sources for both good lamb growth rates and quality milk production minimising digestive upsets
- Contains high selenium & vitamin E for healthy lambs

BOCM Pauls Ewbol Quality Ewe - P02214BG / P02215BG

- 18% Protein
- High rumen degradable protein to improve forage digestion
- Energy level designed to promote good lamb birth weight and milk yield
- Designed to meet the requirements of upland and hill flocks with a good lambing percentage

BOCM Pauls Ewe & Lamb Mix 32 Pellets - P02410BG

- 18% Protein

Sheep Blends

Duchy Sheep Hi Energy - K05090BG

The Supreme Range

- For Feeding in complete diet feeder wagons and midday feeding

Nutrient Value	Supreme 30 K05077BG	Supreme 40 K05083BG
Protein %	30.0	40.0
Fibre %	10.3	9.4
Starch %	12.0	8.3
Sugars %	6.6	7.1

- Not Mineralised - customer will need to add their own minerals
- High quality UDP protein.
- Mineralised (Just add the Grain)
- Keep it simple
- Use mixed from 12 weeks
- Comes in 25kgs, tote bags and bulk

Sheep Loose Minerals

Duchy Sheep Con Balancer - 15147210

- Recommended for use with Duchy Concentrates
- Use 1 x 25kg bag per tonne of finished mix

Duchy Sheep GP - B173422

- Use all year round for on farm mixes
- Use 1 x 25kg bag per tonne of finished mix
- Not suitable for feeding to lambs

Sheep Feed & Mineral Buckets

Duchy Sheep GP - G146

- Not suitable to be fed to entire male lambs
- Very high levels of Vitamin E to help boost lamb vigour and immunity
- Helps to improve performance and health throughout the season
- Especially useful where forages and grazing are the main components in the diet with reduced compound feeding

Duchy Hoof Plus - G148

- Specialist formulation designed to improve development and repair of hoof tissue and reduce lameness
- With protected zinc and Biotin to promote growth of healthy hoof tissue and hardness as a better barrier against infection

Duchy Mag - G144

- Must only be fed post lambing
- Use as an aid to prevent grass staggers during periods of stress or lush grass growth

Duchy Tup - G147

- High phosphorous formulation combined with extra vitamins and omega 3 oils to boost pregnancy rates in ewes
- For best results supplement ewes from 2-4 weeks pre tupping

Lifeline Lamb & Ewe - R1038

- Mineral and feed supplement
- Feed 6-8 weeks pre lambing for complete mineral requirement.
- Boosts colostrum quality
- Improves vitamin and mineral status of ewe and unborn lamb
- Promotes easier lambing and vigorous healthy lambs

Crystalyx Sheep & Beef Standard - 75904 / 75733

- High magnesium for sheep at grass
- Ideal for lactating ewes at grass and mixed grazing in spring and autumn
- Highly palatable form of energy providing essential minerals trace elements and vitamins

Crystalyx Sheep Extra High Energy

- 75917 / 75729

- Ideal for flushing ewes, in lamb ewes, breeding tups – all year round for optimum fertility, growing/finishing lambs at grass
- Ideal product to supplement and balance forage based diets for all sheep, especially prolific / high performance flocks
- Highly palatable form of energy providing essential minerals trace elements and vitamins

Crystalyx Garlyx

- 9503724 / 9803124

- Balances nutrient deficiencies in summer grass and optimises forage intake and digestibility
- Helps repel flies and biting insects particularly beneficial after shearing

Crystalyx Calflyx Easy Breather

- 20821 / 20820

- Helps reduce coughing and respiratory irritation in housed sheep

Beetlic Hi Mag

- 1029

- Feed post lambing
- Contains protein minerals and vitamins
- Provides energy from sugars

Beetlic Hi Energy

- 1028

- Feed at tupping and pre lambing
- High in energy from sugars and protected vegetable oils
- Fortified with quality protein vitamins and minerals
- Ideal for sheep and cattle

Sheep Feed & Mineral Blocks

Rumevite Sheep Super Energy + Fish Oil - RV04

- Aids fertility
- Increases milk yield & quality
- Can be fed at tugging, 2weeks pre lambing to 6weeks post lambing
- Use from early winter onwards to promote good health in hoggetts

Rumevite Hi Energy & Protein - RV03

- Suitable for mixed grazing cattle & sheep
- Use at pre and post lambing
- Feed to ewes carrying singles
- Suitable for use on straw diets

Rumevite Magnesium - RV02

Glucose Buckets

Rumenco Glucose - B76870

- High energy instant sugar fix
- Suitable to feed pre & post lambing
