

Marksway HorseHage

Mollichaff Original

Code: 12½kg 75018

A high quality chaff combining straw and a low sugar dressing with the addition of calcium.

Mollichaff Extra

Code: 20kg 75019

A high quality chaff combining wheat straw, a unique, low sugar dressing and a broad spectrum of vitamins and minerals.

Mollichaff Herbal

Code: 12½kg 75017

A high quality chaff made from the best oat straw with the addition of a variety of herbs found in the horse's natural environment. Contains a balanced mixture of Garlic, Mint, Rosemary and Golden Rod.

Mollichaff Calmer

Code: 15kg WW2141

Mollichaff Calmer is a highly palatable, complete fibre feed designed for horses and ponies prone to nervousness or excitability. Mollichaff Calmer supplies elevated levels of magnesium, as a diet deficient in magnesium can result in increased muscle contraction, making the horse less able to relax and more likely to become excitable or 'fizzy'.

Mollichaff Showshine

Code: 12½kg 24349

A high oil chaff for ultimate show condition, suitable for all horses and ponies. Cherry flavouring gives ShowShine a delicious taste and smell making it highly palatable to even the fussiest of feeders.

Mollichaff Veteran

Code: 12½kg 24873

Contains added limestone, to provide additional calcium for strong bones. A high fibre forage mix designed to complement or replace the entire forage ration where necessary.

Mollichaff Hoofkind

Code: 12½kg 76205

A complete fibre feed designed for the nutritional support of horses and ponies prone to laminitis.

Mollichaff Applechaff

Code: 12½kg 76088

A high quality chaff with the addition of real apple pieces and apple essence. Contains real diced apple pieces as well as apple essence to make AppleChaff irresistible to the fussiest of feeders.

High Fibre Alfalfa

Code: 15kg B02346

Mollichaff High Fibre Alfalfa, is made from UK grown alfalfa mixed with high quality oat straw with natural mint and a light dressing of soya oil.

Barley Plus

Code: 20kg B0651541

Barley Plus is a highly digestible extruded barley nugget with linseed and added calcium and salt.

Ryegrass HorseHage

Code: 75020

Ryegrass HorseHage is made from a selection of ryegrasses cut at an early stage of growth to provide optimum protein and energy levels.

High Fibre HorseHage

Code: 75021

High Fibre HorseHage is made from selected ryegrasses, which have been allowed to mature before harvesting to attain higher fibre, lower protein and lower energy levels.

Timothy HorseHage

Code: 23986

This grass is higher in fibre and lower in protein than many other grasses, making Timothy HorseHage particularly suitable for leisure horses and ponies.

Alfalfa (Lucerne) HorseHage

Code: 75870

Alfalfa is a legume rather than a grass. It has higher levels of protein, digestible fibre, energy, calcium and vitamins than grass
