

# Saracenen

# Bio-Life 2000

**Code: 20kg 76090**

Bio-Life 2000 will help to balance any diet, whether fed on its own, with straights or other compound feeds.

---

# Donkey Diet

**Code: 20kg SCDKD20**

Donkey Diet is specifically designed for donkeys and will help to ensure that they remain in good body condition and in optimum health and condition.

---

# Enduro 100

**Code: 20kg B0645952**

It is specifically designed with energy efficiency in mind to help ensure the athlete's fuel tank doesn't start running on low half way through an event.

---

# Equi Jewel Pellets

**Code: 20kg SC114**

Its calorie-rich design is intended to help maintain and aid weight gain on "hard-keepers" and horses with elevated energy demands such as the hard working equine athlete. The fat in Equi-Jewel is highly digestible and efficiently utilised by horses of all ages.

# Level Grow Mix

**Code: 20kg SCLGM20**

Level-Grow® is a weanling diet that is specially formulated to produce a reduced Glycemic response in growing foals and pregnant mares.

# Minty Chaff

**Code: 15kg SC111**

Saracen Minty Chaff is a lightly molassed chaff, produced using the best quality oat straw, chopped to the required length to encourage optimum digestibility.

# Prep 14 Mix

**Code: 20kg B0659602**

Prep 14® is a multi-purpose sweetfeed containing added fat and beet pulp, which provides extremely palatable calories for all horses in training. They can run on the feed, or it can be used in between races to improve recovery rates.

# Re- Leve

**Code: 20kg 24876**

Re-leve® is a high performance mix, specially designed to replace all cereal and hard feed for horses that are prone to tying up.

# Show Improver Mix

**Code: 20kg 76125**

Saracen Show Improver Mix is the ultimate in conditioning feeds, whether for that extra condition in the sales or show ring, or to put condition on thin horses and 'poor doers'.

---

# Show Improve Pencils

**Code: 20kg SCSIP20**

Saracen Show Improver Pencils are a unique conditioning feed suitable for all types of horses and ponies. It is a barley free recipe to help manage those horses that may have an intolerance to barley.

---

# Show Ring Mix

**Code: 20kg 70135**

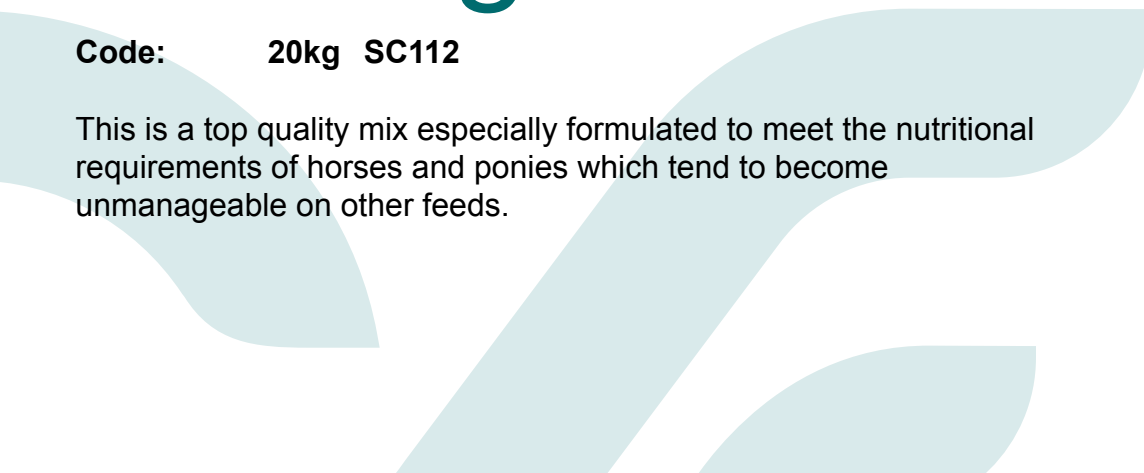

Saracen Show Ring Mix is designed as a palatable high fibre mix, giving Controlled Energy Release from High Digestible Fibre, to help promote that extra condition for the show ring.

---

# Cooling Mix

**Code: 20kg SC112**

This is a top quality mix especially formulated to meet the nutritional requirements of horses and ponies which tend to become unmanageable on other feeds.

# Special M

**Code: 20kg SCSM20**

'Special M' is a safe, convenient and flexible low energy mix. It is manufactured from the finest quality ingredients, to provide a diet that is adaptable to a wide range of situations.

---

# Sport Horse Mix

**Code: 20kg SRSPM20**

This amazingly versatile mix is being successfully used in situations as varied as a top competition at Badminton to pony club games. This is achieved by supplying energy from the optimum balance of oil, fibre and complex carbohydrate sources.

---

# Stamm 30

**Code: 20kg SC113**

Stamm 30® is a highly concentrated source of proteins, with patented vitamins, minerals, and yeasts.

---

# Stud Mix

**Code: 20kg B0657756**

A palatable mix for broodmares during pregnancy and lactation and is ideal for feeding to other stud animals, providing ample nutrients for working stallions and growing youngstock.

# Stud Pencils

**Code: 20kg B0657754**

A palatable cube for broodmares during pregnancy and lactation and is ideal for feeding to other stud animals, providing ample nutrients for working stallions and growing youngstock.

---

# Super Fibre Pencils

**Code: 20kg BOSFP20**

This low energy, high fibre feed is a useful and versatile diet for a wide range of situations. Their high fibre content makes them ideal as a partial hay replacer at times when hay is either scarce, expensive or of poor quality.

---

# Veteran Mix

**Code: 20kg 76091**

A high quality, highly digestible mix designed specifically for the needs of the older horse.

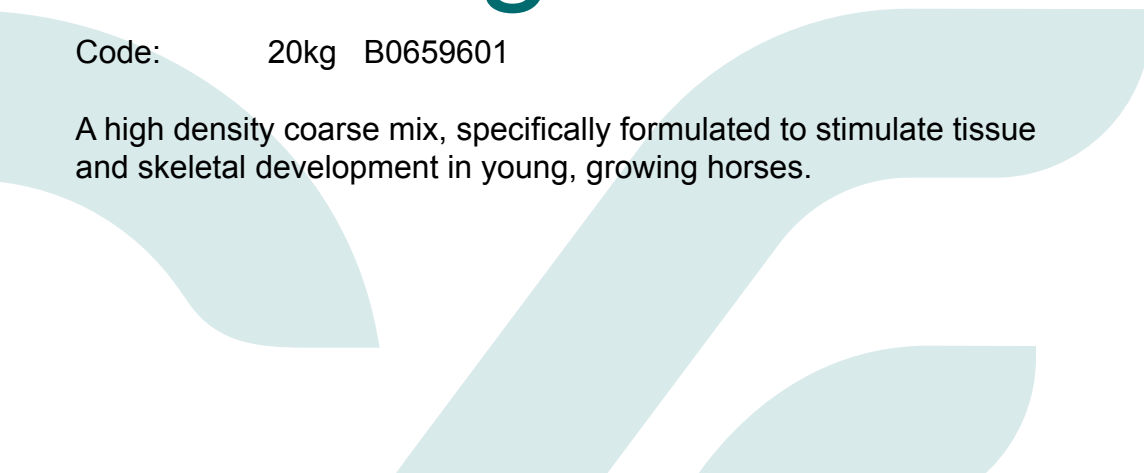

---

# Yearling Mix

**Code: 20kg B0659601**

A high density coarse mix, specifically formulated to stimulate tissue and skeletal development in young, growing horses.

# Cooling Pencils

**Code: 20kg SCCLP20**

Cooling Pencils are suitable for horses in work who seem to “heat” up on feeds with a higher specification.

---

# Bruised Oats (Red)

**Code: 20kg SCBOR20**
