

# Spillers

# Cool Mix

**Code: 20kg 70095**

Ideal for horses and ponies with low to medium energy requirements.

---

# Horse and Pony Cubes

**Code: 20kg 76197**

Like spillers Cool Mix, they are ideal for horses and ponies with low to medium energy requirements.

---

# Cool Concentrate

**Code: 10kg 76111**

SPILLERS® Cool Concentrate is packed with all the vitamins and minerals you'd find in a normal compound feed, but you only give a tiny 500g portion.

---

# Happy Hoof

**Code: 20kg 75501**

SPILLERS HAPPY HOOF® is a unique, low calorie fibre blend suitable for horses and ponies prone to laminitis. Approved by the laminitis trust.

# High Fibre Cubes

**Code: 20kg 70097**

SPILLERS® High Fibre Cubes are a safe, low calorie feed suitable for all horses and ponies with maintenance or low energy requirements. Approved by the laminitis trust.

---

# Meadow Herb

**Code: 20kg 76188**

SPILLERS® Meadow® Herb is a delicious, highly palatable non-heating mix for horses and ponies in light to moderate work.

---

# Senior Conditioning Mix

**Code: 20kg 21192**

SPILLERS® Senior Conditioning Mix is ideal for active senior horses, horses that drop weight in the winter or those in retirement that have difficulty holding weight.

---

# Senior Maintenance Mix

**Code: 20kg 21193**

SPILLERS® Senior Maintenance Mix is ideal for the older good doer who does not require a conditioning feed but will benefit from specialist supportive nutrition.

# Conditioning Cubes

**Code: 20kg 76164**

Improve condition in as little as two weeks without excitability.

# Conditioning Mix

**Code: 20kg B0633297**

Soya oil ensures non-heating calories and excellent coat condition, whilst a full complement of vitamins and minerals support long term well being.

# Competition Mix

**Code: 20kg BOSPCM**

A highly palatable controlled starch mix which provides extra energy for competing horses and ponies.

# Cool Fibre

**Code 20kg SPCDF20**

Contains a palatable blend of dried alfalfa and straw carefully chosen for its consistent nutritional quality.

# Conditioning Fibre

**Code:** 20kg SPCDF20

Formulated to help build condition without excitability.

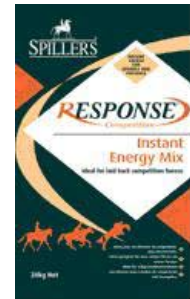

---

# Instant Response

**Code:** 20kg 22685

Higher in cooked cereals but still contains a good proportion of high digestible fibre compared to most other traditional competition feeds.

---

# Slow Release Cubes

**Code:** 20kg 76163

Contains high digestible fibre and oil and is lower in cooked cereals, providing controlled and sustained power.

---

# Slow Release Mix

**Code:** 20kg 70134

Contains high digestible fibre and oil and is lower in cooked cereals, providing controlled and sustained power.

# Oat Balancer

Code: 20kg 70104

Perfectly balances the diets of horses fed oats when included at 30% of the hard feed ration.

# HDF Power

Code: 20kg 70169 - Cubes  
20kg 70170 - Mix

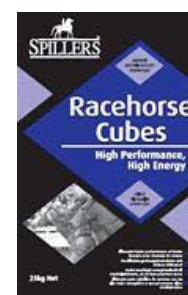

High density fibre for sustained control and power

# Racing Mix

Code: 20kg 24290 - Mix  
20kg 70105 - Cubes

SPILLERS® Racing Mix contains naked oats for the best in high energy delivery.

# Lay Off Cubes

Code: 25kg 77500

High specification, fully balanced formulas to support recovery in box resting horses and those just coming back into work.

# Stud Cubes

**Code: 20kg 24093**

Suitable for youngstock between six and 24 months, broodmares and stallions.

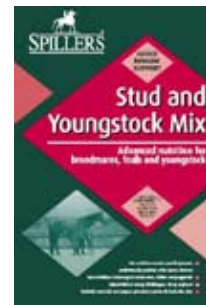

---

# Stud & Youngstock Mix

**Code: 20kg 70171**

A high protein pellet is blended with premium cooked flaked cereals, including oats.

---

# Youngstock Pellets

**Code: 25kg 70108**

Suitable for growing youngstock from two weeks of age to two years.
